Sudan Cruises

THE MSY "SAN MARCO"

is a dream come true...
...the dream of its owners, Licia and
Alessandro. After spending years
diving and exploring the most
beautiful sea floors in the world, they
ended up in Sudan and fell in love

with the same underwater landscapes
that enchanted Jacques Cousteau.

So they decided to come here with their boat
to enable other sea and scuba enthusiasts to
get to know the magic of these unspoiled,
far-off places, and to practise scuba diving to
discover the wonderful underwater
landscapes of the Red Sea...

THE MSY SAN MARCO

is a beautiful 30 metres turkish caique, built in
1997, completely refitted and adapted for
scuba diving in 2005. The boat is a classic
schooner rigged two-masted caique with two
spankers fore and aft, and jib and foresail
forward. Built entirely of wood, with structure
and fittings in quality mahogany and iroko, the
boat is comfortable for 14/16 guests with
accommodation in 2 twin cabins, 3 double
cabins and 2 double cabins with separate 3rd
bunk. These last two cabins are usually used as

double or twin. On request we can
accommodate three persons. All cabins are
equipped with individual air-conditioning and
en-suite facilities with shower unit, towels and
bathrobe. The boat has an ample sundeck
forward and a spacious, comfortable veranda aft
with table, sofa and cushioned area. Inside is a
roomy lounge with bar, divan, table, lcd tv, dvd,
stereo, Mp3 player, and board games.

Expert scuba instructors and guides, are assisted
by a professional, tried-and-tested local crew
and an excellent chef who will delight your
palate with italian and international specialities.

Sudan

MSY

San Marco

The boat is based at Port Sudan, one of the most important commercial ports in East Africa, a place where Christians and Muslims live together in peace. This will be the start of an unforgettable underwater holiday, during which you will be able to discover the unspoiled beauty of the reefs of Sanganeb and Shaab Rumi, and explore the remains of the Precontinent II base and the wrecks of the Umbria and the Blue Belt, on the way to Angarosh, "the mother of sharks".

OUR ITINERARIES
